- **Windows 7+, MacOS, Linux, Android 4+, IOS**
- **Minimum 1.6 GHz or faster**
- **Recommended 4 GB**
- **WebGL**

1. **Running application**
   Online: By opening the website: comiclanden-turbowarp.edgeone.app
   Offline: By opening it on Turbowarp Desktop or on Scratch 3.0 Offline Editor using the .sb3 file from Github

   WARNING! The vector Helvetica Bold font will be looking like a different font in Scratch 3.0 Offline Editor. It's recommended to be opened using Turbowarp

2. **Multimedia**
   Images: png, jpeg
   Audio: wav
   Video: NO VIDEO

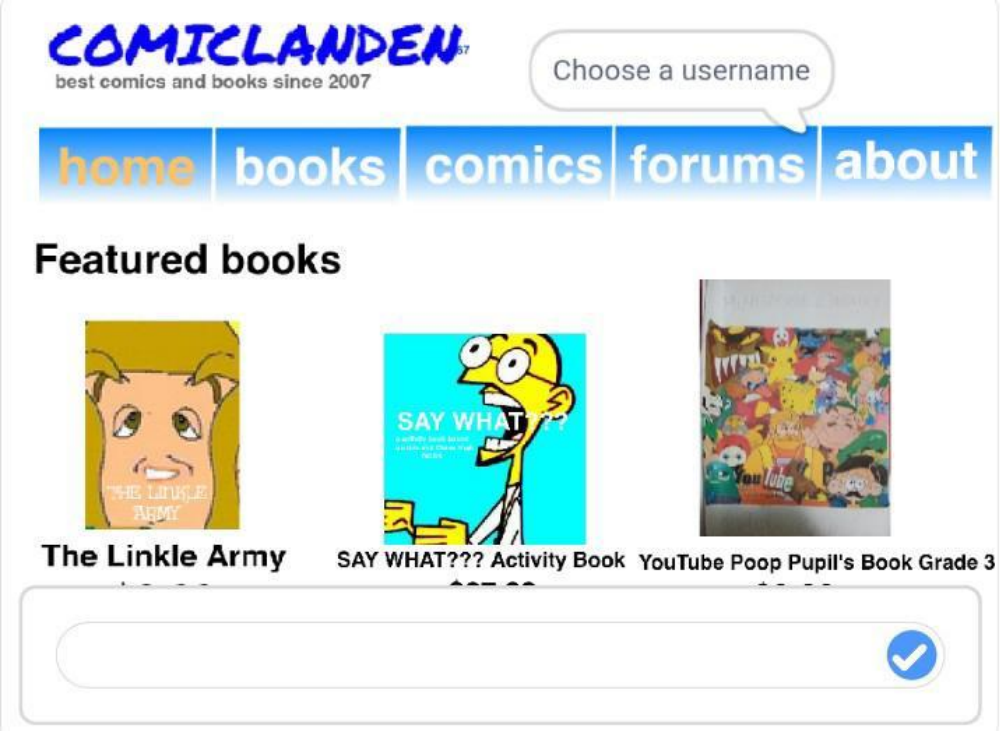
3. **Website**
   The website is having 5 buttons: Home, Books, Comics, Forums and About.

   Each button has it's own functions
   - **Home redirects to the main Comiclanden page**
   - **Books redirects to a page where the books are the same books from the Home page**
   - **Comics cannot be open because the comics are sold out**
   - **Forums are the place where you can discuss everything**
   - **About is about the website and how it was founded.**

4. **Account creation**

To unlock features like making forums, a account must be created. And here's how:

1. **Click the Make a account button**



2. **Choose a username (you can choose anything)**

3. **And done! (you can also change the profile picture by clicking it)**

5. **Easter Egg**
   There's a 67 easter egg. You can access it by clicking the hidden 67 around the Comiclanden logo. Good luck finding it

6. **Glitch**
   If you hate this glitch, I respect your opinion

   There's a glitch that if you change your profile picture after you make a forum, this will result the username change to the forum name and the forum being removed and having the button to make a new one

   Proof

   After:

   Believe you like this glitch or not?
   If not, I told you, I respect your opinion.

7. **It’s a joke at the About page**
   Yes you heard right

Ran out of ideas, have fun with the website or the .sb3 file
